

FLEET LEASING SERVICES

EXPERT SUPPORT ACROSS THE FLEET LIFECYCLE

Your fleet affects every part of your business, from daily productivity to long-term planning. Glesby Marks Fleet Services are built to help you configure, select, acquire, and upfit the right vehicles so your teams can work efficiently and your operation stays on schedule.

With nearly five decades of experience supporting privately held and mid-market companies, we deliver service-driven solutions that strengthen performance, reduce downtime, and support reliable fleet operations.

A STRUCTURED, SERVICE-DRIVEN APPROACH

Our role is to simplify each stage of the fleet lifecycle. We take the time to understand how your operation works, what your drivers need, and how vehicles are used in the field. From there, we provide the vehicles, upfits, and support structures that help you operate reliably today and plan confidently for growth.

Whether you are building a fleet from the ground up or optimizing an established one, Glesby Marks offers the independence, flexibility, and consistency you can count on.

!! BUILD A FLEET SERVICES PROGRAM THAT WORKS FOR YOUR BUSINESS

Glesby Marks provides the expertise, structure, and partnership to support every stage of your fleet's lifecycle, from configuration and acquisition to fully upfitted vehicles.

FLEET CONFIGURATION

Tailored Fleet Design Built Around Your Business

Every fleet has unique demands. We begin with a collaborative review of how your vehicles are used, where they operate, and what your long-term goals require. From replacement timing and upfitting needs to financial priorities, we translate your operational model into a structured fleet program designed to maximize uptime and support predictable fleet spending.

FLEET VEHICLE ACQUISITION

Sourcing and Securing Vehicles with Confidence

Vehicle acquisition can be time-intensive and unpredictable. Glesby Marks manages the entire process, from locating available inventory to negotiating pricing and coordinating delivery. Our independent sourcing model provides access to any make or model, along with eligible manufacturer programs, rebates, and incentives.

FLEET VEHICLE UPFITTING

Customizing Vehicles for Safety, Productivity, and Performance

The right upfit turns a standard vehicle into a work-ready asset. We coordinate design, specification, and installation through a nationwide network of trusted upfit partners. From service bodies and storage systems to safety lighting and equipment organization, every upfitting solution is tailored to your operational needs.

FREE FLEET ASSESSMENT

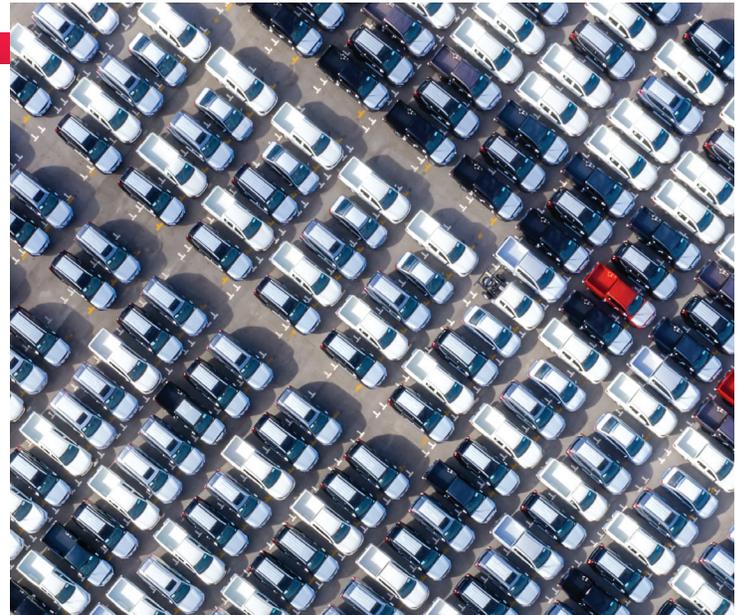

Insight to Strengthen Your Fleet Strategy

Many companies operate fleets without clear visibility into lifecycle timing, true operating costs, or improvement opportunities. Our Free Fleet Assessment provides a structured review of your current vehicles, usage patterns, replacement strategy, and total cost drivers. The result is actionable insight that supports informed decisions and positions your fleet for long-term success.

“ Always professional, knowledgeable and easy to work with on any project whether it’s a small pick up upfit or a detailed cab chassis. **Very prompt and the communication is excellent!** ”
